Dear Carl:

On behalf of the staff and students of St. Joseph Catholic School, I would like to express my sincerest appreciations to you for providing our students an opportunity to participate in a soccer skills program.

Our students and teachers were provided with age appropriate activities to help enhance and develop their soccer skills. The children looked forward to each of your sessions because you were able to teach the skills in a fun, yet challenging way. Carl, your connection with the students and classes was evident by their interactions with you, and their level of participation. The children also looked forward to a “nudge” at the end of the sessions, which certainly was an indication of the success they felt under your leadership.

Our teachers were most grateful to you for providing them with the curriculum that you taught our students. This will be most helpful in their planning and teaching Physical Education classes.

I would like to wish you continued success with the Mount Hamilton Youth Soccer Club Schools Program.

Sincerely,

**Grace Cino**
